# Constituent Manager Solutions — Client Service Guide

## Message from our President

**Dear candidate,**

I want to thank you for taking the opportunity to consider doing business with our firm. Constituent Manager Solutions is dedicated to providing our clients with quality products and services at an affordable rate for any budget.

Our top priority is making sure that our clients are satisfied and that we are providing them with the highest level of customer service. Unlike larger firms, our team is available to meet your needs and respond to inquiries around the clock. We come from different backgrounds and experiences, however our goal remains constant in that we will do whatever is necessary to help you and your campaign or business to succeed.

**Cameron Bonesso**

Managing Partner & President

## Web Development and Design

**Having a reliable, responsive website is essential for any candidate or elected official.**

**We work with you to create a website catered to your specific needs. Choose from one of our already made templates or order a custom design. Our popular templates include websites for nomination candidates, MPs and city council candidates.**

**We build our websites on easy to use development platforms such as Wix, WordPress and Editor X so that you can update your website on your own without needing to know HTML5 or CSS. Our team is also available to help update your website for you whenever needed for a small monthly fee ranging between \$10 to \$100 plus hosting.**

**Custom websites starting at \$1,500 and template designs starting at \$300**

## MMS / SMS Communications

When it comes to reaching out to the most people possible in the shortest period of time, nothing beats an MMS or SMS blast. Blasts are most effectively used for doing voter ID or reminding your supporters to get out and vote. We use dynamic text blocks to create the appearance that your message is coming from a local number.

Craft your own message or let one of our associates create it. Simply provide us with a list of mobile numbers to send the message(s) to and we'll handle the rest. Replies to your message will be answered and organized by our team so they can be entered into your data management system.

## Service Fees

### **MMS/SMS Blast:**

\$0.07 per message of 131 characters sent

### **Returned messages:**

\$0.07 per reply back from blast

### **Texting number rental:**

\$3.00 per number each month

## Voter ID, GOTV and Fundraising Calling

Calling your constituents is an affordable way to collect valuable data and solicit donations from supporters.

We have a team of trained agents available around the clock to assist you with voter ID, GOTV and fundraising calling for your campaign or organization. Provide us with a list of contacts and we'll call through the list at peak calling hours to ensure the best results. Once complete, we will compile the data and send it back to you in a CSV file so it can be directly fed into your data management system. While we prefer to use our own system, we are able to use whatever softphone / VOIP system you'd like us to use such as BCL Talk.

## Service Fees

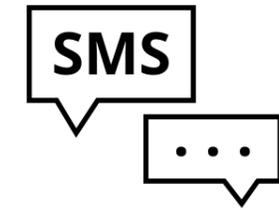

**Voter ID / GOTV call:**  
\$0.45 per call

**Fundraising call:**  
\$0.55 per call + 10% on donations collected

**Calling number rental:**  
\$3.00 per number each month
